# ALPHABETICAL INDEX TO TYPE FACES

**O**N the following pages are listed the most distinguished type faces that are in vogue today. For ease of location they are arranged in alphabetical order as to names, thereby providing an automatic index.

A complete showing of the available sizes of any one of these faces in series will be found on the page of the number designated under the name of type.

At the end of the original index, we have a supplementary index of new types that have been added since this catalogue was printed.

As new types are added from time to time, we will furnish additional index and specimen sheets punched loose leaf style for ease of insertion.

RUSKIN SAYS ALL WORKS OF QUALITY MUST bear a price in proportion to the skill, time, expense and risk attending their invention and manufacture. Those things called dear are, when justly estimated the cheapest; they are attended with much less profit to the artist than those which everybody calls cheap. Beautiful creations and compositions are not made by chance nor can they ever in any material be made at small expense. A composition for cheapness and not for excellence of workmanship is the most frequent and certain cause of rapid decay and entire destruction of arts and manufactures. We say that it is the artist and not the brush—and by the same token it is the
